GENERATION PROTOCOL

PROMPT 1: MAIN ARCHITECTURE

Master Prompt Directives

Design a modern, minimalist, and cinematic landing page for a 3D animated personal portfolio. The aesthetic must rely entirely on a monochromatic color palette consisting of deep blacks, varied greys, and crisp whites. The design should project a premium, sophisticated, and highly technical atmosphere, similar to high-end design agencies or luxury tech brands.

> **Vibe & Tone:** The design should feature smooth motion, layered lighting, glassmorphic depth, and a typography-focused aesthetic. Avoid all bright or neon colors.

Page Structure

- **Hero Section:** Bold, powerful headline like "Designing the Future. Crafting the Now." A short subheading detailing creative expertise and technical proficiency. Include two sleek buttons: one solid white (#FFFFFF) with black text, and one outlined in dark grey. The right side should feature a futuristic 3D wireframe or abstract geometric canvas with subtle, continuous rotation. Background should be a deep black void with a faint, shifting grey mesh.
- **Selected Works (Features):** Four elegant portfolio project cards with subtle silver glow borders and monochromatic gradient icons. Hover animations should create a soft, bright white light pulse. Each card requires a clear, minimalist title and brief description.
- **Creative Process:** A central diagram or flow connecting glowing silver nodes with smooth, curved white lines. Smooth animated connections to symbolize thought process and execution. Headline: "Built on Precision. Executed with Intent."
- **Client Testimonials:** Dark glassmorphic background with frosted depth and blur. 3-4 subtle grey cards with user avatars and quotes. Gentle white light accent under the section heading.
- **FAQ / Connect:** Minimal, sleek accordion with dark gradient borders and bright white hover effects. Include a large 3D floating metallic object (like a sphere or abstract shape) on one side.
- **Footer:** Pitch black minimal footer with a soft grey gradient line on top. Include a stark white logo, clean navigation links, and glowing silver social icons.

Overall Style Guide

Design Element	Specification & Behavior
Primary Theme	Dark cinematic, ultra-modern, spatial computing aesthetic.
Color Palette	Pitch black (#000000), Charcoal (#1A1A1A), Silver (#A3A3A3), Pure White (#FFFFFF).
